

World Orphans works in nine countries through dozens of churches impacting thousands of children and preserving hundreds of families.

Religion that God our Father accepts as pure and faultless is this: to look after orphans and widows in their distress and to keep oneself from being polluted by the world. (James 1:27 NIV)

Most children living in orphanages have one living parent. At World Orphans, working through churches, we help keep families together, strengthen them, and help them toward independence.

We come alongside local churches to provide support for vulnerable families and children within their communities.

Our Home Based Care Program focuses on family preservation through addressing and preventing the rise of the orphan population by wholistically caring for children in their home environments.
